

# HELPING YOUR CLIENTS THROUGH DIVORCE

Support faster closings and preserve assets

You've likely had clients who were separating while selling the family home. Traditional, adversarial divorce processes can destroy family assets and slow down transactions, making it harder for couples to re-enter the real estate market quickly.

It doesn't have to be that way. Fairway Divorce Solutions® offers a step-by-step divorce mediation process that helps couples preserve their assets while also supporting smoother real estate transactions, so you can close deals sooner and help clients move forward more efficiently.

Refer your clients and prospects to Fairway Divorce Solutions®, and everyone will benefit:
